

Moffat Community Observatory

COVID-19 - August 2022

Although we have opened the observatory for visitors, we are maintaining some measures to minimise the risk to our staff and our visitors. We will be operating a flexible policy whereby the wearing of masks will be a personal choice and optional for those that wish to wear them.

Hand sanitisers will still be available at the observatory and staff and visitors should feel free to use them.

Please note the following:

1. As with all infectious diseases, please do not attend if you have any symptoms.

Please follow the guidance of the staff member at all times. In line with our existing terms and conditions, staff have the right to ask visitors to leave if they are not complying with guidance.

Additional measures we have put in place are:

2. Telescope eyepieces and other equipment and contact surfaces will be regularly sanitised as will surfaces and chairs.
3. All waste will be removed offsite every day

Please confirm that you have read and are willing to comply with these requirements prior to visiting. If you have any queries regarding our Covid requirements, please use the contact form on our web site.
